

Recalibrating Personal Grids (Magnetic, Mechanical and Electronic)

In order to upgrade your electrical, mechanical & magnetic circuits and avoid blowing out lights and appliances, follow these steps. Please discern if this resonates with you before you continue.

1. Stand in the middle of your house or office
2. Ground with the eternal, living, organic (ELO) divine sovereign heart of Mother Earth and the Eternal Sacred Source.

Thought Intention:

- * Upgrade all electrical, mechanical and magnetics in my home, car and work area to be in a compatible harmonic resonance with my highest vibrational frequency and 3 times beyond.
- * Accelerate in perfect ratio with my path of acceleration and evolution for all future upgrades.
- * Allow all vibrational upgrades and frequency changes to acclimate with ease & grace.

So be it and So it is done.

Thank you, Thank you, Thank you

Choose Love ~♥~ Live Consciously
